

Is your Council's data safe?

1 in every 4 councils
experienced a cyber security incident

between 2013 and 2017*, a survey has found

Spam emails, malicious login attempts and theft of public data are just a few ways that cyber criminals pose a threat to Councils.

As Councils hold significant amounts of sensitive information, cyber security is a growing concern. So far, the Information Commissioner's Office (ICO) have fined individual Councils **up to £150k** for data breaches.**

We can help protect your Council against cyber crime

We are pleased to introduce our new cyber insurance solution, **'BHIB Cyber for Councils'**, with a range of exclusive benefits:

- Direct access to a 24hr helpline in the event of an incident.
- Share the cost through a joint policy with up to 3 other Councils.
- A free 1 hour cyber and GDPR consultation with a compliance specialist, who is also a councillor.
- 10 free anti-virus licences and data breach alert software for your computers.

At just £299.99 (including Insurance Premium Tax), our annual cover is available for all Councils, not just existing policy holders.
